FREQUENTLY ASKED QUESTIONS

What is Underwriting?

Underwriting is a way of supporting The House FM & My Praise FM (non-profit, non-commercial radio stations) and getting the name of your business heard by our listeners.

What is the difference between advertising and underwriting?*

Advertisements are paid announcements in the print, broadcast, or electronic media, whereas underwriting is a support statement. As a non-commercial radio station we are prohibited from airing advertising but we can air underwriting. The major difference between "advertising spots" on commercial stations and "underwriting announcements" on noncommercial stations is an underwriting announcement must have the purpose of "identification only" and its language cannot specifically bring someone to action, as do many advertising spots.

What can Commercial Underwriters say?*

Underwriting announcements are concise and gimmick-free. As a non-commercial radio station, The House FM & My Praise FM's underwriting announcements are defined by the FCC and should conform to their guidelines.

What is allowed on announcements for Commercial businesses?*

- Value-neutral descriptions of products and services
- Brand name of products
- Products or services offered or sold

What is prohibited on announcements for Commercial businesses?*

- Comparisons and endorsements
- Expression of viewpoints
- Price or value information (including discounts)
- Calls to action ("come on down," for example)

ADDITIONAL INFORMATION

There are three parts of underwriting announcements for Commercial businesses:

1. The business name
2. A brief description of business or service(s).
3. Repeats your business name and gives location or contact information.

Underwriting Example:
